

Waterproof HR binocular**Optical Hardware Elinor 8x45 Binocular**

[Elinor - Old English / Celtic - The meaning of light]

Designed for Birdwatching and Nature, the Elinor has it all.

Bak4 prisms, 8x magnification with ultra wide 8.3 degree field of view, provides a high resolution comfortable and incredibly stable image.

Using 45mm objectives instead of the usual 40/42mm provides increased brightness, allowing the

Elinor to be used in lower light conditions, yet she has a weight of under 900g.

Other features include huge eyepiece lenses for very comfortable, long eye relief viewing.

Rubber eyecups allow the Elinor to be used easily with glasses on or glasses off.

The body has tough rubber armour and is fully waterproof. Nitrogen filling ensures no fogging even in the dampest conditions and extremes of temperature.

All lens surfaces are fully multicoated further enhancing brightness and clarity. Optical Hardware's broad lightband transmission ensures incredibly accurate colour rendition.

Case and strap included, and if required the Elinor can be mounted on a tripod.

Every Elinor model is fully checked and tested in the UK before despatch and is backed by the Optical Hardware 30 year guarantee

Size approx 175mm x 155mm x 65mm
Approx. weight : 890g
