10x50

£ 23.99

12x50

A more powerful binocular for long range work. 12x magnification is ideal for aircraft spotting and shipping, yet can still be used comfortably by hand. However like all Visionary Classic style binoculars can be used on a tripod if required.

Use a 12x50 for aircraft and ship watching.

£ 26.99

20x60

Very powerful 20x magnification using large 60mm lenses to increase brightness. A fabulous binocular for long range work. Some users may find 20x magnification too powerful for hand held use however this model is easily fitted to a tripod.

Use the 20x60 for long range observation.
